NAMES/CREDENTIAL(S) OF PRESENTER/AUTHOR

Kelly Sinclair-McClintock, MA, LICDC-CS, MCAP

Kelly has spent the better part of her career working with a criminal population, often within the walls of the jail system, and (oddly enough) has loved every moment of it. Kelly says, "it's easy to enjoy being institutionalized-when you have the keys to the joint"! (So true).

Since 2005, she has served as the CEO of Project Solutions, a social service organization that provides counseling services to a criminal population. Kelly has authored numerous professional training manuals and is a sought-after speaker/presenter.

COURSE DESCRIPTION

Find out why the cannabis industry is booming, as we explore this plant's addictive properties, as well as its newfound fame as a healing powerhouse. This short course will help you understand how cannabis products, including

THC and CBD, are being used to prevent and treat conditions like depression, anxiety, autoimmune disease, and cancer.

This course is applicable for both prevention professionals and practitioners of all levels. Course content applies to various client populations (i.e., addiction, mental health, etc.) and is relevant for services provided in a variety of settings (clinics, shelters, jails, etc.).

GOAL

Participants will gain knowledge about cannabis; to include the dangers of addiction, as well as its use as an effective remedy to prevent and treat disease.

OBJECTIVES

1. Participants will be able to recognize, understand, and describe the addictive nature of cannabis.
2. Participants will be able to recognize, understand, and describe effects of marijuana on the brain and body, to include its potential to be a gateway drug.
3. Participants will be able to recognize, understand, and describe the uses for CBD and other cannabinoids, including the potential health benefits.
4. Participants will be able to recognize, understand, and describe the importance of the entourage effect.
5. Participants will be able to recognize, understand, and describe the legal status of cannabis.
6. Participants will be able to recognize, understand, and describe both the addictive and healing properties of cannabis.
